**A critical fable.**

Dear sir (or dear madam) who happen to glance at this title-page printed you'll see to enhance its æsthetic attraction, pray buy, if you're able, this excellent bargain: A critical fable; the book may be read in the light of a sequel to the "Fable for critics" a volume unequal (or hitherto so) for its quips and digressions on the poets of the day, without undue professions, I would say that this treatise is fully as light as the former, its judgments as certainly right as need be. A hodge-podge delivered primarily in the hope of instilling instruction so airily that readers may see, in the persons on view, a peripatetic, poetic Who's who. An account of the times, by a poker of fun, WITT D., O. S., A. I. Boston and New York, Houghton Mifflin and company, 1922.

## COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS.

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class "a", books received with informal applications or informal affidavits, or without the registration fee; or without the data required in order to make the copyright registration.

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class "b", books received with the necessary fee, application and affidavit, and these documents in such order that the registration can be promptly proceeded with.

In the case of the books of class "b," the manner of handling them in the Copyright Office enables the larger number to be given promptly a registration number, and such books are sent forward from the Copyright Office for cataloguing on the day of receipt, or the day following. These are usually books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited but also nearly all the important books.

During the year 1922, out of a total of 10,798 books received and drawn up into the Library of Congress from the Copyright Office, 7,920 belonged to class "b." Of these 4,803 were sent up on the day they were received in the Copyright Office and 3,117 on the day following their receipt. Two thousand eight hundred seventy-eight belonged to class "a" and were sent up on various dates.
